

Our Commitment to Our Patients and to the Industry™

We Are a Best Wellness & Injury Clinic™
Committed to Providing Families With the Best
Wellness and Injury Care Possible™

Our commitment to our patients – and to the industry – is simple. We aim to play our part in improving both the quality and cost-effectiveness of care.

At the core of our commitment is a set of standards – standards which we've been helping to pioneer – for assisting neuro-musculoskeletal practices nationwide, as reasonably applicable, to:

- Objectify Conditions (e.g., Pain, etc.)
- Produce and Show Results ... Objectively Wherever Possible
- Reduce Redundant Services and Payments
- Reduce Even the Appearance of Financial Inducements When It Comes to Care
- Enhance Consumer Choice and Consumer Protection

Naturally, we're always looking to continuously develop what we do ... and to stay on the cutting edge. One way we do this is by staying focused on producing and showing results ... objectively and corroboratively wherever possible.

We're proud of the standards we're helping to develop. For this reason, we've placed a copy of Our Commitment & Best Practices Standards™ on the footer of every page of our Clinic's website. We also regularly provide "lunch-and-learns" on these topics for various companies and healthcare entities who may be interested.

If you have any questions or if we can be of any assistance, please do not hesitate to call our Clinic.
